Foreword

Welcome to the Sale

On behalf of the entire Archives International Auctions team, I would like to personally welcome you to our Second Hong Kong auction. We are offering over 400 lots of Chinese and Asian Banknotes, Coins & Scripophily in association with Dynasty Auctions Company on April 12th, 2014 in Hong Kong at the Harbour Plaza North Point Hotel. Included will be many desirable banknotes that are rarely seen at auction in addition to a large assortment of specialized issues from many areas. We have hundreds of banknotes in our current offering that will appeal to collectors and dealers at every level with many of the notes new to the market from old estates or collections.

Highlights include a Hupeh Government Mint rarity that was discovered in an old estate in Colorado and is new to the collecting community; A high grade group of 10 International Banking Corporation, 1905, \$10 issued notes as well as other rare notes from an old, early Cuba family estate put together in the 1920's and only recently discovered by the family after they immigrated to the U.S. from Cuba in the 1950's; a high grade Ming Note that was discovered in a small European auction recently; an exciting, high grade Singapore "Birds" Specimen set that originally was discovered in an old pawn shop in Montreal, Canada; a very interesting group of Ch'ing notes of various dates and denominations from the "Hamtramck Collection", put together over a 40 year time period by an astute high ranking U.S. army Colonel as he traveled the world from the 1940's to the 1980's, as well as a number of rare Hong Kong notes found in his travels. Additionally, there is a spectacular Russo-Asiatic, 1910 "Harbin Branch" \$100 note in AU condition that will enhance any advanced collection; a very attractive pair of \$5 and \$10 Mercantile Bank of India as well as a 1934, \$50 Chartered Bank of India, Australia & China notes, all from the "Hamtramck Collection"; Numerous issued and specimen notes from Republic and Empire issues as well as Provincial and Private Issuers, coins and scripophily that help round out the auction.

We are looking forward to another exciting Hong Kong auction and hope you enjoy our current offerings. Our next live auction is scheduled for late May, 2014 at our offices in Fort Lee, New Jersey and will include U.S. & Worldwide banknotes, coins and historic documents. We are also in production for our next Banknote and Scripophily Auction to be held in conjunction with the Fourth Annual Wall Street Coin, Currency and Scripophily Show scheduled this October 2014. If you have suitable material, we are still seeking consignments for both our May and October auctions.

We would also like to thank Dynasty Auctions Company LTD and their warm and welcoming team for their help and encouragement in holding our second Hong Kong Auction and look forward to many more in association with them in the future.

I would like to thank everyone who has participated in our past auctions and has helped make this auction series a resounding success.

Best of luck,

Bob Schwartz

KEY TO CATALOGING

DEFINITIONS

SPECIMEN: An archival printing sample of a finished item, such as a stock certificate, banknote or stamp that is printed usually with "000000" serial numbers and may have "Specimen" overprinted on it and be punch canceled to invalidate it and prevent its use surreptitiously. Specimens were kept for a number of reasons, though usually as samples to give out to prospective customers to give them an idea of the type and quality of the work that the printing company was capable of doing. Usually specimens were printed in limited amounts at the beginning of a printing run to evaluate the quality of the printing work and color combinations at an early stage, rather than have an entire production run rejected due to some minor flaw that was not found until after the printing was completed. A specimen is similar to the final product, printed on the same paper and in the same color.

COLOR TRIAL SPECIMENS: Sometimes specimens would be printed in numerous color combinations not used on the final note for evaluation before a final printing. These are usually extremely rare.

PROOF: An initial pull or impression from a plate or die for evaluation of text, vignette, engraving, and esthetic appeal and to check for any errors or faults. These were usually printed on india paper mounted on card or printed on some form of paper or light card. The amount of proofs printed is usually extremely small and usually number only a handful. Proofs allowed the printing company to evaluate the quality of the item being printed without having to go to the expense of making final plates and finding out small errors that could have been repaired at an earlier stage. Usually, proofs are single impressions of banknotes, stamps, vignettes, etc. Anything that was made into a plate, such as a sheet of 100 stamps could have had proof impressions taken from it. These would be called plate proofs (for multiple images) versus die proofs (usually of a single or small amount of images).

COLOR TRIAL PROOF: A proof printed in a color other than the issued color.

ESSAY SPECIMEN or PROOF: A proposed design that was not used but may be similar or even totally different to a final approved design. An artist, engraver or company may have proposed a number of different designs and color combinations to a client for his approval. If a design is rejected and never used, it could be called an essay.

PRODUCTION MATERIAL: Material found in files used in the production of security printed documents, banknotes, stamps and such. It may include correspondence, photographs, artwork, and signature samples, samples of other printed items that are marked up with corrections as well as proofs, specimens, essays, models, mockups and issued final items.

MODEL: A proposed or final design that may include original artwork, pieces of design elements such as borders, titles, vignettes, corporate seals, underts and possibly portions of photographs. Before an engraved item was made, a design had to be decided on. This portion of the design process allowed for the artistic skills of the engraver or design department to be exhibited. Before the "digital age", banknote engravers and designers would cut up portions of other engraved items and re-apply them in a different form or design to come up with a unique new stamp, banknote or certificate. Often, all new engravings or "vignettes" of people or scenes would be engraved first to include in the new "work of art", and other times, portions of different completed items would be "borrowed" to use on a newly designed item. All models are rare and almost all of them are unique.

- (b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.
- (c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Archives International Auctions in association with Dynasty within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Archives International Auctions in association with Dynasty within four weeks of the date of the auction; however, Archives International Auctions in association with Dynasty may, in its discretion, refuse acceptance of such returned lot. If an opinion of a mutually acceptable authority is desired, the period of time within which a lot must be received by Archives International Auctions in association with Dynasty will be extended in accordance with Condition of Sale 8. In the event that a dispute cannot be resolved by reference to a mutually acceptable authority, and Archives International Auctions in association with Dynasty thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned intact and in the original packaging and in the condition received (unaltered) by the purchaser. The following lots are not returnable except at the discretion of Archives International Auctions in association with Dynasty: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue; or (iv) lots described as having repairs, defects or faults for any reason. (v) lots containing more than ten (10) items. (d) Authenticity. Any lot which is declared otherwise than genuine by a generally recognized authority is returnable, provided such lot is received by Archives International Auctions in association with Dynasty within four weeks of the date of the auction. Proof that a mutually acceptable authority declines to express an opinion is not grounds for the return of a lot.
- (e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 are not subject to refund.
